### Reserve Bar Tokens

Collectors can exchange a group of tokens with gold piece (GP) value for Reserve Bar(s) with an identical value. For example, you can send in 1,000 GP worth of various tokens and in exchange TD will send you one 1,000 GP Gold Bar Reserve Token. Reserve Bar Tokens have been made available as a service so collectors can have an easier time making transactions involving GP equivalent tokens as well as reduce the physical size and weight of their collections. The total GP value of the tokens submitted in a given transaction must be evenly divisible by 1,000.

The currently available Reserve Bar Tokens are:

- 1,000 GP Gold Bar
- 5,000 GP Mithral Bar
- 25,000 GP Eldritch Ore Bar

### Partially Used Tokens

- If a charged item has all its charges expended, the item may not be converted into Trade tokens.
- If an item with multiple charges (e.g., old-style wands) has at least one unused charge, it may be converted into Trade tokens.

If an item with a single charge (e.g., Wish Ring) has been expended, it may not be converted into Trade tokens.

*Note:* A used Wish Ring may be converted into a Reserve Bar token because it's still worth 1,000 GP.
