[†]Assume these recipes will change annually.

*For an **Ultra Rare** token to be eligible for use in an Omni recipe, that **UR** must:

- Have been printed in 2018 or later.
- Be part of the Standard Set of 20 **URs** for that year.
 - If you're not certain whether a token is part of the Standard Set, look the token up in the [TDb](#). If it says "Source: Standard Pack" in the stat block, that token is part of the Standard Set. If the Source of the **UR** you're looking up shows anything other than "Standard Pack", that **UR** is not eligible for this recipe.

continues at the top of the next column

- If a Standard Set **UR** was originally printed before 2018 and then got reprinted in 2018 or later, only the 2018 or later version is eligible. E.g., +2 SACRED SLING was printed in both 2014 and 2023. Only the 2023 version could be used in an Omni recipe.

Omni Use Restrictions

- Omni Cubes and/or Omni Orbs may **only** be used in Legendary recipes.
- Omnis may not be used in any recipe for a treasure-enhancing token—even if it's a Legendary treasure-enhancer.
- We reserve the right to add additional restrictions in the future.
