

# Safehold Program Details

## Overview

On March 1<sup>st</sup>, 2023, we began the Safehold program. The main goals are to give collectors more collecting fun, to allow players to make more strategic decisions regarding equipping their character, as well as to allow TD to soak up some excess Trade tokens. With this program, collectors can create different levels of Safeholds to gain in-game benefits for their character.

There are five levels of Safeholds which can be created (transmuted), and they numerically descend as they get more powerful (Safehold V is less powerful than Safehold I).

The appropriate level SAFEHOLD V through SAFEHOLD I token must be presented in Coaching if you wish to equip a certain level of Trainer (like a Hireling or Follower). See individual sections for more details. The “Under Construction” tokens can also be presented in Coaching to prove you are the owner of a Safehold that is a half-step back in power. For instance, a SAFEHOLD IV (UNDER CONSTRUCTION) works the same as a SAFEHOLD V token.

Each level of Safehold token comes with five Steward tokens of the same exact type. These Steward tokens allow the Safehold owner to create new tokens (Trainers), and the actual Safehold token itself allows the player to use these newly created tokens in a TD game session.

The best way to understand the system we have created is to imagine your character has built a tower. Now that your character has a permanent home, you can spend some hard-earned GP on getting some helpers or trainers to augment your adventuring skills. So, you employ a HIRELING STEWARD who has the power to recruit and manage five Hirelings with the express purpose of prepping your character for upcoming adventures. When the next adventure comes along which involves sneaking into a snake cult temple, you have your HIRELING BREWMASTER cook up some venom-resisting libations to give your character +4 to Fortitude saves. This temporary effect might come in handy in a snake cult temple.

More powerful helpers can be created as your tower grows larger into a keep or even a castle. This will give you more options for pre-adventure training.

## More Details

In the world of True Dungeon, creating a Safehold takes some time. Even with the arcane magics used to hasten the building process, a certain amount of time must pass to create a Safehold. To simulate this, the creation of any Safehold starts with transmuting an “Under Construction” token for that level of Safehold. Once the proper amount of time has passed (see below) the collector can then place another transmute order to finalize the creation of that level of Safehold.

The package that is sent back to the collector includes the appropriate level Safehold token, as well as five special Steward tokens which are related to that specific level of Safehold token. Thus, the first

| Safehold Token Level | Benefit   | # of Hireling Slots | # of Underling Slots | # of Follower Slots | # of Sidekick Slots |
|----------------------|---|---------------------|----------------------|---------------------|---------------------|
| SAFEHOLD V           | 5 HIRELING STEWARDS<br>(Creates Hirelings)      | 1                   | —                    | —                   | —                   |
| SAFEHOLD IV          | 5 UNDERLING STEWARDS<br>(Creates Underlings)    | 1                   | 1                    | —                   | —                   |
| SAFEHOLD III         | 5 FOLLOWER STEWARDS<br>(Creates Followers)      | 1                   | 1                    | 1                   | —                   |
| SAFEHOLD II          | 5 SIDEKICK STEWARDS<br>(Creates Sidekicks)      | 2                   | 1                    | 1                   | 1                   |
| SAFEHOLD I           | 5 MYTHIC TRANSMUTERS<br>(Creates Mythic tokens) | 2                   | 2                    | 1                   | 1                   |

Safehold token, the SAFEHOLD V token, also comes with five HIRELING STEWARD tokens which have one “charge” to be used in special transmute recipes to gain a Hireling.

And again, once a certain amount of time has taken place after receiving a Safehold token, the collector can then transmute their current Safehold token into the next level of a bigger and more powerful Safehold. For example, once a collector receives their SAFEHOLD V token, they may send it (along with other tokens) into TD HQ as a transmute order to upgrade it to a SAFEHOLD IV (UNDER CONSTRUCTION) token. After a certain amount of time has passed, this newly created SAFEHOLD IV (UNDER CONSTRUCTION) token can then be sent back to TD HQ (along with other tokens) to create a SAFEHOLD IV token.

This process can then continue through more steps until the collector finally possesses a SAFEHOLD I token – as well as all the Steward tokens collected through the various Safehold token levels.

The Safehold tokens will never appear in the Random Treasure Generators, although lower level special Follower tokens may appear in Golden Ticket bags.

True Dungeon will be rolling out the availability of the various levels of Safehold tokens over the next few years so that the final benefits of the most powerful Safehold I token will be available for transmuting starting in October, 2025.

All tiers of Safehold and Safehold-related recipes can be found in the [Recipe Appendix](#).

## Safehold V

This level of Safehold comes with five HIRELING STEWARD tokens. A HIRELING STEWARD token may be used within a special Transmute order to acquire any one of the Hirelings shown below. Your character gains one Hireling slot which you can fill with any Hireling token during an in-person or virtual adventure. You may collect as many as you wish – so long as you have the proper tokens to fulfill the Hireling recipe. Note that you must show your Coach a SAFEHOLD V through SAFEHOLD I token in order to equip a Hireling. You may create as many Hirelings as you wish, but you can only equip one Hireling unless you have a SAFEHOLD II (or better), in which case you may have up to two Hirelings.

## Safehold IV

This level of Safehold comes with five UNDERLING STEWARD tokens. These can be used to create Underling transmuted tokens which will provide a small in-game bonus. These Underling tokens represent low-level adventurers who you take under your wing to teach the hard lessons of adventuring. In return, you will gain a small in-game benefit.

Your character gains one Underling slot which you can fill with any Underling token during an in-person or virtual adventure. Note that you must show your Coach a SAFEHOLD IV through SAFEHOLD I token to equip an Underling. You may create as many Underling tokens as you wish, but you can only equip one Underling unless you have a SAFEHOLD I, in which case you may have up to two Underlings.

There are no restrictions about what class you can take as an Underling. E.g., a Paladin character can have a Rogue Underling.

The recipe to make a SAFEHOLD IV token requires a SAFEHOLD V token.

## Safehold III

Besides the SAFEHOLD III token that is delivered with the transmute order, the collector also receives five FOLLOWER STEWARD tokens. These special tokens allow collectors to summon special magical friends to gain in-game bonuses. Like Hirelings mentioned under SAFEHOLD V, you may create as many Followers as you wish, but you can only equip a single Follower in an adventure. A Safehold token of level III through I must be shown to the Coach to equip a Follower. The recipe to make a SAFEHOLD III token requires a SAFEHOLD IV token.

**Note:** The Followers' extra slot benefit stacks with other magic items that increase slots. However, Followers can't break the cap on slots that have an expansion slot cap. E.g., FOLLOWER DRAGONKIN does not allow you to equip more than 9 Ioun Stones nor 8 Beads, and FOLLOWER FIEND does not allow you to equip more than 10 Charms. Currently, Bead, Charm, and Ioun Stone are the only slots with a cap on how many you can equip, but it's possible that other slots could get expansion slot caps in the future. If that happens, Followers won't be able to break those expansion slot caps either.

Safehold II

When you transmute a SAFEHOLD II, token you also get five SIDEKICK STEWARD tokens. You can use these to craft a tier of Trainers called Sidekicks. There are five Sidekicks to choose from:

Trainer Limits  
(Hireling/Underling/Follower/Sidekick)

These limits apply to how many you can use in-game. You may transmute as many as you like, so long as you can supply all the necessary ingredients.

- SAFEHOLD V owners may only equip one Hireling.
- SAFEHOLD IV owners may only equip one Hireling and one Underling.
- SAFEHOLD III owners may only equip one Hireling, one Underling, and one Follower.
- SAFEHOLD II owners may equip up to two Hirelings, one Underling, one Follower, and one Sidekick.
- SAFEHOLD I owners may equip up to two Hirelings, up to two Underlings, one Follower, and one Sidekick.

Larger fortresses give you more resources for training with your at-home training team. This means your character can do more pre-adventure training, and thus get more instruction from their Trainers.

Maximum Equippable Trainers Table

| Safehold Level | Max Hirelings | Max Underlings | Max Followers | Max Sidekicks |
|----------------|---------------|----------------|---------------|---------------|
| V              | 1             | —              | —             | —             |
| IV             | 1             | 1              | —             | —             |
| III            | 1             | 1              | 1             | —             |
| II             | 2             | 1              | 1             | 1             |
| I              | 2             | 2              | 1             | 1             |

Per standard stacking rules, you may not equip more than one Trainer of the same name.

Safehold I

SAFEHOLD I tokens are created when a SAFEHOLD I (UNDER CONSTRUCTION) is transmuted. This final level of Safehold token comes with five MYTHIC TRANSMUTER tokens. Every Mythic recipe requires a MYTHIC TRANSMUTER. One example of a Mythic token is the COIN OF WEALTH.

Building a SAFEHOLD I means your character has built an amazing stronghold which comes complete with a Mythic Transmuter Laboratory. This research room gives your Mythic Transmuter a great place to do her research, but it also comes with a nice in-game benefit.

Anyone who shows a SAFEHOLD I token in Coaching gains the benefit of having IOUN STONE SILVER NUGGET, IOUN STONE GOLD NUGGET AND IOUN STONE PLATINUM NUGGET tokens become slotless to equip.

More information about tokens you can transmute for with a Safehold I (Mythic Tokens) will posted later.

## After the Above Start Dates Pass

No doubt there are going to be collectors who come late to the party, and weren't around at the initial start dates to make these Safehold tokens. We therefore created some rules which simulate some building delay in the making of Safeholds. With this system, it takes a new collector nearly a year to finally construct a SAFEHOLD I token.

All tiers of SAFEHOLD (UNDER CONSTRUCTION) tokens can only be created in transmute orders paid for during "odd" months of the year (e.g., January, March, May, etc.). SAFEHOLD tokens (not of the Under Construction variety) can only be included in transmute orders generated during the "even" months of the year. The date TD HQ receives your order does not matter—only the date the order was finalized.

There is no limit to the number of Hireling, Underling, Follower, Mentor, or Mythic tokens that can be created by a collector so long as they have the required ingredients to craft them. However, there are limits to the number of Trainers one may equip. See [Trainer Limits](#) for more information. All Trainers have a specific tier of Safehold they must possess and will be required to show to their coach. Similarly, anyone playing on Mythic is required to have both an AMULET OF ASCENSION and a SAFEHOLD I.
